Meet Optica.

For more than a century, through membership and highly-respected meetings and journals, our society has brought together a community renowned for its scholarship and innovation.

Optica, formerly OSA, honors both that rich history and the incredible community that made it all happen. We are committed to realizing the potential of light to solve societal challenges and empower what’s possible when we all work together.

2022 EXHIBIT AND SPONSORSHIP OPPORTUNITIES

Now more than ever, it is essential to stay connected with your customers and develop new relationships. As buyers resume business travel and in-person interaction, so does your ability to engage with them one-on-one.

To support your efforts, Optica Meetings are returning to in-person exhibits in 2022. Recognizing the value of online participation, many meetings will also include virtual components. This includes virtual sponsorship opportunities to support your objectives.

Optica meetings are international in scope, while the exhibitor and attendee experience remains intimate in scale. An average attendance of up to 600 participants fosters a sense of community that cannot be achieved at larger meetings.

Optica events can significantly extend your reach to a global audience of buyers and industry leaders, as well as newly accessible early-career professionals looking to forge a career in industry.

- **Thought Leadership** – Position your company as a trusted thought leader and strategic partner to a highly engaged audience.
- **Mindshare** – Bring your solutions directly to new audiences through meaningful brand exposure and networking.
- **Market Intelligence** – Gather authentic, unfiltered perspectives on the business challenges facing attendees, presenting you with new opportunities.
- **Branding** – Place your company in front of decision-makers that will influence the buying process.

Reach key prospects in an intimate setting that fosters in-depth conversation about your company’s technology.

As a first time exhibitor, we participated for new leads, to foster existing relationships and to build brand recognition. Optica Meetings are a great place to achieve these goals. We also like the concentrated exhibit hours; that’s definitely a plus. We will continue to keep these events on our trade show calendar each year because we always see the right people here and find the session topics to be informative and relevant.
